CHAPTER

1 INTRODUCTION

1.1 HISTORY

(AGCE) was established in 2011, under the able and dynamic leadership of **Honorable Mr. Arvind Gavali**. He has not only established himself as renowned entrepreneur but also is in the field of engineering education for more than a decade. Driven by a mission of providing an excellent quality education AGCE's society has left no stone unturned in setting up. The **AGCE started** in the academic year 2011. The College is approved by All India Council for Technical Education (AICTE), New Delhi, recognized by Government of Maharashtra, Directorate of Technical Education (DTE), Mumbai and affiliated to University,

To satisfy the aspirations of youth force, who want to lead the nation towards prosperity through techno economic development.

1.3 MISSION OF INSTITUTE

To provide, nurture and maintain an environment of high academic excellence, research and entrepreneurship for all aspiring students, which will prepare them to face global challenges maintaining high ethical and moral standards; by implementing quality practices.

1.4 AGCE QUALITY Policy

AGCE committed to provide value based quality education maintaining pace with changing technology to produce competent and skilled professionals ready to accept global challenges.

RIGHT TO INFORMATION

AGCE accepts the well-known notion of quality as conformance to prescribed standards. These standards shall be intimately related to the Graduate Attributes definition accepted by the AGCE. The AGCE recognizes the need to prescribe standards for every aspect of its operations, taking care to ensure that equity, access and excellence are taken into due consideration in this process.

Every activity of the AGCE needs to undergo continuous improvement. This requires data collection, analysis and bench marking of each activity. The AGCE shall carefully evolve such a system involving every stake-holder of the AGCE, in a participative manner. Towards this AGCE shall follow SAFE (Standards, Assess, feedback & Excel):

- Setting **Standards** by establishing a detailed on-line data collection system. The endeavor shall provide comprehensive support to all stakeholders and ensure that individual wise support is extended and augment the existing and future resources in this direction.
- **Assess** by conducting annual audits of its activities and evolve benchmarks for each. The annual audits shall provide the essentials that need to be taken care of and also considered important which in turn can be benchmarked with institutes of repute and rise to the international standards.
- **Improvisation adopted by AGCE is communicated to all stake holders on basis of their feedback.** The AGCE shall empower the IQAC (Internal Quality Assurance Cell) to be a pillar of quality consciousness through the various quality activities
- **Feedback** to be given to all stake holders about the results of quality efforts in each area of activity, each year. The AGCE shall empower the IQAC to be a pillar of quality consciousness through the various quality activities. All the stake holders will be involved in the quality policy dissemination, absorption and control mechanisms that will be evolved at regular intervals.
- **Excel** by providing awareness and training in quality concepts & system to all stake holders of the AGCE. There shall be continuous training and development among the stake holders through the measures which can provide the much needed impetus to the quality concepts and systems in vogue and also elicit responses on the benchmarking improvements from time to time.

1.5 AGCE COMMUNITY

AGCE ,Satara started in 2011 has today become a well-recognized technical institution for imparting quality technical education owing to the constant, sincere and dedicated efforts of its Team. Hon. Founder Secretary AGCE is renowned entrepreneur and academician. He strongly believes that establishment of an excellent technical institution is the key solution to the problem of development of techno-economic society. AGCE is located at Varye, Satara and surrounded with greenery. It offers Under Graduate programs in Civil, Computer Science, Electronics & Telecommunication, and Mechanical, Electrical Engineering and Post Graduate Engineering program Heat Power Engineering. Institute makes every possible effort to inculcate the moral and ethical values among students, along with technical and professional competence. Well planned co-curricular and extracurricular activities are promoted to empower students with sense of social commitment, humanitarian values, ethical practices and professionalism. All round efforts are taken to groom the students to become a responsible Global citizen.

CHAPTER 2

2.1 ATTRIBUTES OF GRADUATES/ POST GRADUATES

ATTRIBUTES OF GRADUATES:

1. **The Engineer and Society:** Apply knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems.
2. **Problem Analysis:** Identify, formulate, research literature and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences
3. **Design/ Development of Solutions:** Design solutions for complex engineering problems and design system components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal and environmental considerations.
4. **Conduct investigations:** of complex problems using research-based knowledge and research methods including design of experiments, analysis and interpretation of data and synthesis of information to provide valid conclusions.
5. **Modern Tool Usage:** Create, select and apply appropriate techniques, resources and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The Engineer and Society:** Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice.
7. **Environment and Sustainability:** Understand the impact of professional engineering solutions in societal and environmental contexts and demonstrate knowledge of and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.
9. **Individual and Team Work:** Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write. Effective reports and design documentation make effective presentations and give and receive clear instructions.
11. **Project Management and Finance:** Demonstrate knowledge and understanding of

RIGHT TO INFORMATION

engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

- 12. Life-long Learning:** Recognize the need for and have the preparation and ability to Engage in independent and life- long learning in the broadest context of technological Change.

5.6 NATIONAL SERVICE SCHEME COMMITTEE

NSS Committee:

National Service Scheme unit (Unit No: ASF158) is established in September 2017. The motto of the National Service Scheme is 'NOT ME BUT YOU'. The NSS is part of our academic, social and personal life as it is the third dimension of education. It allows the students to actively contribute their services for the cause of community and the nation, thus helping them develop their personality. Service and attain the traits of a leader of the nation. As such, the NSS is the right platform, where the student- youth of the nation may get to involve with real-life social activities, and thereby become responsible citizen of India.

NSS Mission:

- To understand the community in which they work and their views.
- To understand themselves in relation to their community.
- Identify the needs and problems of the community and do the work for problem solution.
- To develop competence required for group living and sharing of responsibilities.
- To acquire leadership qualities.
- To develop capacity for meeting emergencies and natural disasters.
- To develop a sense of social and civil responsibilities to society.
- To gain skill in mobilizing community participation.

NSS Objective:

Objective of National Service Scheme is educational, service is the activity through which this objective is sought to be attained, means Personality development through social service.

NSS Policies

The unit at college/+2 level is the grass-root unit in NSS. The organization keeps contact with the community, administration, student youth and teaching faculty through this unit only. Therefore, the organization and management of NSS unit are of vital significance.

1. NSS Unit

An institution will be allotted NSS units according to the strength of students. The number of units will be allotted by the Programme Coordinator in consultation with NSS Regional Directorate and State NSS Officer considering the demands of the institution. It is expected that the institution will provide necessary facilities for the successful running of the NSS unit

RIGHT TO INFORMATION

because it is a part of the institution i.e. college or school.

The strength of a unit will be 50 NSS volunteers normally. The strength of the NSS unit can be extended up to 100 volunteers in exceptional cases where second unit cannot be raised due to constraints. It is always preferable that a separate unit is started instead of enrolling more NSS volunteers.

In exceptional cases where the total strength of students enrolled is very small, a smaller NSS unit can be started with the strength of 50 NSS volunteers.

2. Enrolment of NSS Volunteers

At college level the NSS volunteers will be enrolled from the first and second year degree-class students. Preference should be given to the students who have worked as NSS volunteers at +2 level also. Students belonging to minority communities, scheduled castes and scheduled tribes should be encouraged to participate in NSS. They should be given due representation where more students desire to join NSS. In co-educational colleges the girls should be motivated to join NSS.

The students from foreign countries studying in Indian universities should also be encouraged to join NSS so that they may share the experiences of national reconstruction and community work.

NCC cadets will not be allowed to join NSS. Similarly NSS volunteers will not participate in NCC or any other youth organization as long as they are in NSS. Same restriction will apply to the NSS Programme Officers also.

3. Programme Officers

One Programme officer will be in charge of one unit only. Only those belonging to the teaching faculty will be considered for appointment as programme officer. Programme officer will be responsible for the organization of NSS unit, implementation of NSS programme under the supervision and direction of principal of the college or head of the institution. The programme officer will be responsible to carry out the instructions issued by the programme coordinator of the University, NSS regional directorate and state NSS officer for the implementation of NSS activities as per the NSS Manual, programme guidelines and administrative and policy directives.

There shall not be any clash between the instructions issued by the NSS Regional Directorate or State NSS Officer or Programme Coordinator as these instructions are to be based on NSS

RIGHT TO INFORMATION

Manual/Programme guidelines or administrative or policy directives issued by the Government of India.

Programme Officer – appointment, duties and functions

The Programme Officer is expected to motivate student youth to understand the values and philosophy of NSS. The overall function of Programme Officer is to help the students to plan, implement, and evaluate the activities of NSS under his/her charge and give proper guidance and directions to the student volunteers.

To discharge his/her obligations under NSS Programme the Programme Officer plays the role of an organizer, an educator, a coordinator, a supervisor, an administrator, and public relation officer to improve the quality and magnitude of NSS programme in his/her institution. His/her functions can be stated as under:

(a) As an Organizer

- ❖ To interpret the scheme to the students and other members of the college community and create awareness about the scheme;
- ❖ To Motivate, recruit and select student for NSS work;
- ❖ To enlist cooperation and coordination of community agencies, government departments and non-governmental agencies; and
- ❖ To select service projects on the basis of utility and feasibility.

(b) As an Educator

- ❖ To prepare orientation programme for NSS volunteers, explain them about the concept of social service, and teach them methods and skills required for achieving the objectives of the scheme;
- ❖ To promote community education through meetings, talks, news bulletins discussions etc.; and
- ❖ To help in formulating NSS programmes which will have direct relationship with the academic curricula.

(c) As a Coordinator

- ❖ To coordinate NSS activities in accordance with the student's ability and community demands.
- ❖ To coordinate internal resources available in the form of teaching expertise of teachers for enhancing the knowledge and skills of the students in implementation of the scheme; and
- ❖ To coordinate various external resources available in the forms of government services;

- ❖ To prepare annual calendar of activities to be undertaken.

(f) As a Public Relation Person

- ❖ To inform the community about the scheme through press reports, radio and television programmes, pamphlets, seminars and speaker's forums.
- ❖ To initiate IEC campaigns for image building of NSS in order to inspire and motivate the students and community.

1. Selection of the Programme Officer

The selection of the Programme Officer will be made by the Principal of the institution in consultation with the Programme Coordinator of the respective university/+2 level.

Qualification

- ❖ Programme Officer will be selected from the members of teaching faculty only.
- ❖ NCC Officers and Physical Education Directors should not be appointed as NSS Programme Officer.
- ❖ In women college/girls schools a lady teacher should be appointed as programme Officer. However, male members may help the lady programme Officer.
- ❖ A teacher who has high level of, motivation, inclination and aptitude for community work and above all very good report with students should be preferred as programme Officer.

RIGHT TO INFORMATION

2.2 Tenure

The maximum period for which a teacher is appointed as programme Officer will be 3 years in the first instance. However, this period is extendible upto 4th year, on the basis of the review of his/her performance by the Principal and programme Coordinator.

2. Training/Orientation

The programme Officer will be sent for orientation course within 3 months of his/her selection. The programme Officer must undergo the orientation training within one year of the date of his/her selection in case the orientation is not conducted in the stipulated period of 3 months.

The Principal of the institution will intimate to the programme Coordinator, NSS Regional Directorate and ETIs concerned regarding the selection of the programme Officer and necessary arrangement of the orientation of the selected programme Officer. The Principal will also ensure that the programme Officer is relieved for participation in orientation training organized by ETIs. Similarly, the programme Officer is expected to attend refresher course after every two years and it is the obligation of the head of the institution to relieve the programme Officer for this purpose.

If the selected programme officer does not undergo the orientation training for any reason within one year from the date of his/her selection, he/she will cease to function as programme officers and another person will be selected and given training in time. No programme officer without orientation will continue to work as programme officer if he/she is not trained within the stipulated period.

3. Approach

The main objective of NSS programme is to prepare the NSS volunteers for the democratic, self-disciplined and self-reliant way of life. It is, therefore, of vital importance that the NSS units are organized and run on democratic lines. The student leaders, NSS leaders, NSS volunteers and other members of the staff, and eminent personalities from the community are also to be associated with it. They should be encouraged to participate in planning, execution and evaluation of NSS programme.

5.7 COUNSELING AND EMERGENCY MEDICAL CARE COMMITTEE

Health insurance:

4. Policy for Continuous Evaluation

Unit Test

1. Conduct unit-wise assessment of the student.
2. Prepare & make available a comprehensive question bank for each unit and/or experiment.
3. Refer previous years University question papers for making question bank.
4. Give the model answers for the questions.
5. The questions for the Unit Test should be from the question bank itself.
6. Keep records of performance of the students in class and in Unit Test.
7. Maintain a record of action taken on the results of the Unit Test for improvement (reappear/assignments).

Assignments

- a. Upload Unit wise assignments on MOODLE.
- b. Timely check the assignments & keep record for evaluation.

Mock Exam

- a. Conduct mock exam for lab practical/oral.
- b. Keep records of performance of the students.
- c. Follow university pattern for the conduction of mock exam so that student will confidently appear University examination.
- d. Conduct oral in every lab session to ensure proper understanding of students.

Group Discussion/Presentation

1. Arrange Quizzes, Group discussions, Questionnaire Sessions etc. for the student.
2. Schedule student presentations on current topics/technological evolution.

5.9 ACADEMIC AUDIT COMMITTEE POLICY

Policy Statement:

1. Academic audit is for to reviews the processes and procedures used by Departments to enhance the quality of their programs.
2. Academic audit is for to ensure the quality in teaching and learning they provide to students.
3. Academic dean will form the academic monitoring committee on the basis of selection criteria.

Selection criteria:

- Self-motivation, determination and confidence
- Academic & audit experience
- Communications skills
- Meticulous attention to detail.
- Ability to work to deadlines, under pressure.

Objectives of Academic Audit

The main objective of an academic audit is to ascertain the presence and adequacy of quality assurance procedures, their applicability and effectiveness in guaranteeing quality of inputs, processes and outputs.

Specific objectives are:

- 1) To ensure academic accountability.
- 2) To define quality of each component of the functionalities and to ensure quality of technical education throughout the system.
- 3) To safeguard functionalities of technical education.
- 4) To define effectiveness of teaching – learning process and to devise methodology to confirm maximum output from faculty members as well as students.
- 5) Identify the processes and procedures used by departments for quality assurance and enhancement in each of the focus areas
- 6) Appraise the adequacy and effectiveness of the quality assurance processes and procedures.
- 7) Make appropriate recommendations for continuous improvement of the processes and procedures used for quality assurance and enhancement

RIGHT TO INFORMATION

Structure & Functioning of the Academic Auditing

The Academic Auditing committee at the Institution level should perform the academic audit and will function as a body assisting the Academic Dean.

Structure

Academic Auditing Committee (AAC) is a group of faculty members having representation from each department. The members of the AAC shall be nominated by the Head of the Institution, one from each department. The term of AAC shall be for one academic year. AAC shall conduct internal academic audit and produce the required documents and records and submit to Academic Dean on demand. AAC is also responsible for uploading monthly report. **Audit procedures**

The Principal of the college and Academic Dean shall ensure that the records/documents listed in audit checklist are maintained and accessible for both HOD's and faculty members.

The Academic Dean shall ensure that data are uploaded / mailed, as the case may be, within the stipulated time. AAC members should conduct academic audit of the institution, in academic matters. Academic Dean shall verify the details of a department; but, a member from the concerned department shall not be a member in the internal audit group.

Policy for Teacher Evaluation

Policy Statement:

- 1) AGCE believes that a teacher evaluation process that promotes high and sustained levels of quality instruction is essential for student academic success, growth, and achievement. Accordingly, evaluation of teachers should be conducted regularly and should reflect a fair, meaningful, and accurate depiction of a teacher's development, growth, and performance in the teaching profession.
- 2) AGCE is also committed to supporting teachers in their professional practices and believes that meaningful teacher evaluations allow the district to identify teachers' instructional areas that need strengthening and prescribe appropriate available support and professional development. Therefore, teachers may seek available district support to improve their professional practices. Additionally, teacher evaluation provides the district with a useful tool to inform personnel decisions.
- 3) Indicators of Teacher Practice demonstrating teacher's subject matter knowledge, skill in planning and delivering instruction that engages each and every student, and ability to monitor and assess student learning and adjust instruction accordingly. Such indicators

RIGHT TO INFORMATION

may include the following indicators or others chosen by a local or state affiliate: classroom observations, proof of practice (e.g., lesson plans, curriculum plans, student assessments, minutes from team planning meetings, curriculum maps, and teacher instructional notes), teacher interviews and self-assessments.

- 4) Indicators of Teacher Contribution and Growth demonstrating a teacher's professional growth and contribution to a school and/or district success. Such indicators may include the following indicators or others chosen by a local or state affiliate: completion of meaningful professional development that is applied to practice; structured collaboration with colleagues focused on improving practice and student outcomes (e.g., by way of professional learning communities and grade or subject teams); evidence of reflective practice; teacher leadership in the school, district or educational community; and positive engagement with students, parents and colleagues.
- 5) Indicators of Contribution to Student Learning and Growth demonstrating a teacher's impact on student learning and growth. Such indicators must be authentic, reflect that there are multiple factors that impact a student's learning beyond a teacher's control, and may include the following indicators or others chosen by a local or state affiliate: student learning objectives developed jointly by the teacher and principal/evaluator; teacher-created assessments, district or school assessments, student work (papers, portfolios, projects, presentations); teacher defined objectives for individual student growth; and valid, reliable, high quality standardized tests that provide meaningful information regarding student learning and growth.
- 6) All teachers are responsible for providing a high quality education to students and supporting the efforts of colleagues and their school as a whole to do the same. To fulfill that responsibility, teachers have the right to a safe and supportive working environment including ongoing non-evaluative feedback on their practice that supports teachers' efforts to innovate and the right to regular, confidential evaluations.
- 7) All teachers have the responsibility to continually enhance their practice and to stay update in subject matter and pedagogical approaches by reflecting and acting on feedback received, accessing professional development opportunities provided and collaborating with colleagues to enhance instruction. To fulfill that responsibility, teachers have the right time for collaboration with colleagues and professional development tailored to enhance skills identified as needing improvement in non-evaluative feedback.
- 8) If, through a high quality evaluation system, a teacher's practice fails to meet performance standards, a teacher should be provided with clear notice of the deficiencies and an

RIGHT TO INFORMATION

improvement plan should be developed by the teacher, local association and employer. The improvement plan should provide the teacher with a reasonable opportunity – including time, professional development and support – to meet expectations. What constitutes a reasonable opportunity will depend on the nature of the deficiencies identified, but in no event should an improvement plan exceed a academic year. During the period in which a teacher is implementing an improvement plan, an accomplished teacher should be assigned to assist the struggling teacher both to improve that teacher's practice and ensure a quality education.

- 9) If a teacher fails to improve despite being given a reasonable opportunity to do so, or otherwise fails to meet expectations through misconduct or otherwise, the teacher may be counseled to leave the profession or be subject to fair, transparent and efficient dismissal process that provides due process. Such a process should include: notice to a teacher of the basis for the dismissal; early disclosure of all evidence on which the dismissal is based; an early mandatory meeting between the teacher, employer and the teacher's representative to discuss possible resolution; and, failing such resolution, a prompt hearing before an impartial decision maker on the charges.
- 10) Institute encourages Academic Performance Indicators (API). API is quantitative approach to measure the quality of teaching staff, i.e., their proficiency level. The API was introduced as an attempt to link teacher's selection, annual increment and their promotions according to their academic performance and also as measures for maintenance of standards in the higher education.

5.10 TRAINING LEARNING NEEDS ANALYSIS (TNA)

A training/learning needs analysis (TNA) is a review of learning and development needs for staff, members of management and students in our organization. It considers the skills, knowledge and behaviors that your people need, and how to develop them effectively. Organizational TNA should ideally be undertaken at 3 levels:

- ❖ Organizational level
- ❖ Team/departmental level
- ❖ Individual level

These three levels are inter-linked, and using this structure will help ensure a balanced analysis that takes into account the big picture as well as the specific needs of individuals.

Methods that can be used to identify learning needs include:

- ❖ Analysis of existing strategies and plan to identify what skills are needed for delivery
- ❖ Questionnaires – paper based or online
- ❖ One-to-one interviews
- ❖ Focus groups - facilitated small group discussions with a representative sample of people the outcome of your TNA should be a robust learning and development plan, based on research and linked to organizational, team and individual objectives.

Policy for Training/Learning Needs Analysis (TNA)

Ensure that the identification of training needs is integrated across the organization

Training needs discovered in one department are likely to exist in others. It is pointless for individual HOD to throw their own limited resources at each problem as it arises, duplicating efforts and dissipating energy. You may not be the person responsible for coordinating the system, but you have an important role to play in collecting the best information you can on the training needs of the people who work for you and passing it up the line. At the outset, liaison with HOD to aggregate training needs information, so that a range of appropriate training and development activities can be planned.

1. Anticipate future needs

Training needs often appear at the organizational or activity level. For example, the arrival of a new office or workshop equipment may well have training implications for everyone using it. Alternatively, an organization that decides to enhance its level of customer service as part of a corporate strategy knows that a programme of training and development is essential for its

success.

2 Develop Monitoring Techniques

Some training needs can go unnoticed because they creep up on the organization gradually. Active monitoring systems are essential to spot these and can make a valuable contribution to the process of collecting information on performance gaps and training needs. Variance analysis is one approach to monitoring. This sounds technical but is a simple tool used by managers to monitor budgets. It translates neatly to the identification of training needs. When a budget is agreed, expected monthly expenditure is detailed. Any major variance from the forecast-upwards or downwards - triggers an investigation into why it happened and what the implications will be. In TNA, the budget numbers are replaced by performance standards and indicators which are as specific as possible. It could be, for instance, that even in a 'soft' issue like customer satisfaction, a standard can be set that says 95% of customers feel they received excellent service (the 5% allows for the small number who will always find fault and those who always rate an experience as less than 100%, on principle). Carrying out customer satisfaction surveys allows you to measure any deviation. Asking questions at appraisal interviews can act as a form of survey, as the same issues are being addressed throughout the organization. Identifying training needs is one purpose of appraisal. In addition to training needs that emerge as a result of an appraisal interview, a worthwhile approach to investigating one-off problems is to interview staff and customers. Regularly ask a random sample of people for their views on the same set of questions relating to general performance - for instance customer satisfaction levels.

3 Investigate unexpected problems with care

Monitoring will indicate where gaps and problems exist. However, it is possible to make the wrong assumption when faced with a particular set of circumstances. For instance, unusually rapid staff turnover in a small section may lead to a conclusion that unsocial hours worked there are the issue. However, staff exit interviews may indicate that turnover is a result of cramped working conditions and poor ventilation – issues that training cannot resolve, even though the monitoring process has helped identify the problem.

On the other hand, it could be that:

- The behavior of the section head is the root cause
- Errors at the recruitment stage mean that unsuitable people are being taken on.

RIGHT TO INFORMATION

In either of these cases there is a training need - in the first case with the section head and in the second with those doing the recruiting. This could include you.

4 Identify the level of need

It could be that a training need is limited to a single individual or activity but it is more likely to be relevant for a number of people, a whole department or across the organization. For example, if the organization traditionally treats customers as a nuisance, it needs to change its overall approach. In this case, giving one two people training would address the training need at the wrong level; organization development is needed rather than individual training sessions.

5 Consider what type of training will be most appropriate

Consider whether the training needs can be met by using internal expertise or whether external assistance will be necessary. Will informal training be suitable or are formal training courses required? Take into account the number of people to be trained and the resources available.

6 Take appropriate action

If the training needs are within your own span of control, probably at individual or maybe at activity level, you can plan action to meet the needs. If the needs are broader, you will need to make recommendations and proposals to those responsible for planning and implementing training interventions in your organization. This may involve drawing up a report specifying the training needs you have identified, your recommendations for meeting them and the expected benefits of the training.

5.11 GENDER EQUALITY POLICY

Policy

The Institute is committed to promote gender equity and avoiding all forms of discrimination between individuals based on race, gender, age, class or religion in all of its activities within and outside the institute.

- A.** To promote the equal participation of girls, boys, women and men in all the activities of the institute as decision-makers in shaping the sustainable development of institute and society.

- D.** Any complaint of discrimination based on gender, age, race, ethnicity, class or religious affiliation would be reviewed and addressed by set procedure under women Grievance Cell and all legal associated cells as per UGC & Government of Maharashtra norms.

5.12 LIBRARY COMMITTEE

Institute library is enriched with a good number of textbooks, reference books, handbooks, communication skills books, soft skills books and print journals. Institute library is a member of the National Digital Library (NDL) to access different manuscripts and Special reports. The library is equipped with rare books collection made available from Rare Book Society of India (RBSI). The library has a membership of British library, DELNET to access different knowledge resources. Apart from the standard books, the library has taken initiatives to enrich with e-resources like- e-books, e-journals related to the subject, to benefit students and faculty for their knowledge enhancement, research and exploring new things. Our institution is managing the day to day library transactions with Integrated Library Management System (ILMS). The library is automated using “BIYANI” library software. Implemented barcode technology in the library for books and borrowers card.

Student representation on the library committee is another avenue for the students to put up their demands about learning material which may include availability of material in time and quantity. Also, this representation helps the students to express the problems faced by them (if any) and utilization of library resources.

Following are the details of ILMS:

- ❖ Name of ILMS software - Biyani
- ❖ Nature of automation (fully or partially) -Fully
- ❖ Version – Basic 1.0.1
- ❖ Year of Automation – 2013

Library Policy

- ❖ BookPurchase Policies:
- ❖ Purchase the books as per AICTE rules as per needs of faculty&staff.
- ❖ Purchase the books before the beginning of AcademicYear.
- ❖ Purchase the books according to updatedsyllabus.

A) Books Weeding Policies:

- Subject teachers and library committee will decide unused, out of syllabus books, after every academicyear.

1. Book Issue returns policies for topper and categorystudent:
